

## Society for Engineering in Agriculture Consultants Register

[Back to SEAg Homepage](#)

Family Name	Given Names	Phone	Email / web address	Areas of expertise
Barton	Peter Stewart	(07) 5476 6367	<a href="mailto:barton_peter_stewart@hotmail.com">barton_peter_stewart@hotmail.com</a>	Design & development; feasibility studies; training; mechanisation programs; expert witness & patent work
Bligh	Kevin	(08) 9755 7589	<a href="mailto:walburra@netserv.net.au">walburra@netserv.net.au</a>	Water erosion research and extension, no-till sowing development and adoption, no-till seeders.
Campbell	Hugh	(02) 6933 4243	<a href="mailto:hugh.campbell@bigpond.com">hugh.campbell@bigpond.com</a>	Design and installation of fixed pressurised irrigation and stock and domestic water supply; effluent irrigation; expert witnessing; irrigation monitoring and control systems
Dalton	Paul Anthony	(07) 4613 4278	<a href="mailto:daltonp@ozemail.com.au">daltonp@ozemail.com.au</a>	Spray & surface irrigation design; monitoring systems development; training development and delivery; air quality and hydrological modelling; erosion control; irrigation water use auditing; project management
Elder	William Brian	(03) 5381 1702	<a href="mailto:mcbeagrain@wimmera.com.au">mcbeagrain@wimmera.com.au</a>	Aeration & chilled air cooling to preserve stored grains or oil seeds in bulk storage
Fairweather	Helen	(02) 6881 1211	<a href="mailto:helen.fairweather@agric.nsw.gov.au">helen.fairweather@agric.nsw.gov.au</a>	Agricultural systems modelling & monitoring; EIS; agricultural database development & maintenance; water use efficiency in the Australian irrigation sector.
Gilmore	Duncan Bartlett	(07) 3853 5250	<a href="mailto:info@gilmore-engineers.com">info@gilmore-engineers.com</a> <a href="http://www.gilmore-engineers.com">http://www.gilmore-engineers.com</a>	New product development and commercialisation; engineering failure analysis; expert witness; advanced design; experimentation; computer modelling
Gransbury	John	(08) 8373 4949	<a href="mailto:jg@hydroplan.com.au">jg@hydroplan.com.au</a>	Design and project management of irrigation and water supply systems from offices in Perth, Adelaide, Sydney, Brisbane and Beijing. Major projects' - Willunga Basin Pipeline - a large urban effluent recycled to vineyards of McLaren Vale, user owned & operated scheme with 3rd party access for 70 users; Hundreds of drip systems for vineyards; Pump stations for Yandilla Park Citrus and Banrock Station (BRL Hardy); Rural town water supply schemes for Black Point and Hardwicke Bay; Stormwater ASR & reuse schemes; Pivot/travellers/spray/drip/etc for all applications.' Civil Engineer, Certified Irrigation Designer (Agric Drip/Micro)
Harris	Harry	(07) 5448 1375	<a href="mailto:harrish@tpg.com.au">harrish@tpg.com.au</a>	Consultant Agricultural Engineer, Expert Witness, Specialising in Agricultural Machinery
Harris	Paul	(08) 8303 7880	<a href="mailto:paul.harris@adelaide.edu.au">paul.harris@adelaide.edu.au</a> <a href="http://www.ees.adelaide.edu.au/people/soil/pharri01.html">http://www.ees.adelaide.edu.au/people/soil/pharri01.html</a>	Anaerobic digestion of agricultural wastes

Family Name	Given Names	Phone	Email / web address	Areas of expertise
Hillier	Andrew John	(08) 8424 3807	<a href="mailto:ahillier@chariot.net.au">ahillier@chariot.net.au</a>	Structural engineering, geotechnical & civil engineering
Macmillan	Ross H		<a href="mailto:r.macmillan@devtech.unimelb.edu.au">r.macmillan@devtech.unimelb.edu.au</a>	Agricultural machinery, analysis and design, tractor performance, agricultural materials, agricultural engineering education, farm safety, development technologies, fluid –particle mechanics - has available a general computer program for plotting particle trajectories that may be useful in the design and evaluation of spreading, cleaning and other similar agricultural engineering processes involving particles moving in fluids.
Maheshwari	Basant Lal	(02) 4570 1235		Irrigation management and design, soil conservation and management, environmental hydrology
Moore	Graham Andrew	(03) 9344 6808	<a href="mailto:G.Moore@civag.unimelb.edu.au">G.Moore@civag.unimelb.edu.au</a>	Power and machinery, expert witness, measurement and data collection, environmental management, idea generation and creative thinking
Moorhead	Robert Leslie	(07) 3237 1516	<a href="mailto:bear5095@powerup.com.au">bear5095@powerup.com.au</a>	Asset & risk management; waste water disposal, infrastructure assessments
Perrens	Dr Stephen John	(02) 9413 3411	<a href="mailto:pc@netro.com.au">pc@netro.com.au</a>	Environmental hydrology; irrigation drainage; municipal & agricultural effluent re-use; soil conservation; land rehabilitation; floodplain management; catchment management.
Rendell	Robert	(03) 5441 4821	<a href="mailto:rendmckg@bendigo.net.au">rendmckg@bendigo.net.au</a>	Irrigation management; salinity & drainage; waste water irrigation; general farm management
Schlunke	Paul	(06) 5705 6850	<a href="mailto:schlunke@better.net.au">schlunke@better.net.au</a>	Management of overseas agricultural mechanisation projects, commissioning and installation of project machinery and workshop equipment; design, manufacture, & installation of agro processing equipment
Southorn	Neil John	(02) 6360 5662	<a href="mailto:neil.southorn@orange.usyd.edu.au">neil.southorn@orange.usyd.edu.au</a>	Property planning; farm water supplies; irrigation; fencing & stockyards; farm structures
Watts	Peter Jeffrey	(07) 4632 8230	<a href="mailto:peter.watts@fsaconsulting.net">peter.watts@fsaconsulting.net</a>	Irrigation; intensive livestock production; environmental management
Weeks	William Douglas	(07) 3368 9228	<a href="mailto:bill.weeks@halliburton.com">bill.weeks@halliburton.com</a>	Hydrology, water resources assessment and analysis, hydraulics
Williams	Brendan Joseph	(03) 5442 8708	<a href="mailto:bwilliams@gps-ag.com.au">bwilliams@gps-ag.com.au</a>	GPS technology; broad acre farm equipment; grain handling
Withers	William Bruce Jameson	(08) 8524 5538	<a href="mailto:withers@dove.net.au">withers@dove.net.au</a>	Irrigation practices for optimum water use, especially in vineyards; Investment planning for aid-funded irrigation projects; Farmer managed irrigation in developing countries; Onfarm water management.
